

Profile form for mentors

ARIADNE*TechNat* mentoring programme

Friedrich-Alexander-University Erlangen-Nürnberg

All information provided in this profile form is voluntary and will be treated confidentially in compliance with the relevant data protection regulations. The data will only be used within the framework of the ARIADNE programme.

The information helps us to match suitable mentoring tandems.

The formation of the tandems takes place under consideration of various criteria such as qualification level and subject area. The most important criterion for matching, however, is that the mentors can advise the mentees on the majority of the topics they mention.

ARIADNE deliberately does not provide professional supervision but rather interdisciplinary mentoring. The mentoring is a supplement to academic supervision and offers space for open and trusting exchange about individual questions on academic career crafting with an independent person.

Inclusion in the ARIADNE mentor database is non-binding. Inclusion does not commit you to take on a mentorship!

Please send the profile form preferably by mail to the programme coordination:

Büro für Gender und Diversity
ARIADNE*TechNat* Mentoring-Programm
Am Weichselgarten 9
91058 Erlangen
ariadne-technat@fau.de

Thank you very much for your commitment!

I am interested in participating in the ARIADNE*TechNat* programme as a mentor.
